

大学化学实验（G）课程介绍

一、中文简介：

大学化学实验 G 涵盖了无机化学和分析化学二门化学基础主干课程的实验知识，包含了化学的基本实验操作、基本实验技能、基本的实验方法等。大学化学实验 G 是近化学类学生的专业基础课，是一门理论性及实践性很强的课程。

二、英文简介：

Experiments of College Chemistry (G) covers fundamental experiment knowledge of two main chemistry subsidiaries, inorganic chemistry and analytical chemistry. Topics include basic experimental operations in chemistry, fundamental experiment skills, standardization methods and related subjects. Experiments of College Chemistry (G) is a compulsory course for chemistry related majors, with an emphasis on both sides of theory and practice.
